EDUCATION

Vellore Institute of Technology, Vellore

2023 – 2027

B.Tech. in Computer Science and Engineering (Data Science)

CGPA: 8.09

SKILLS

Programming Languages: Python, C, C++, Java, JavaScript, SQL, R

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

Web Development: Node.js, Express.js, React.js, RESTful APIs, HTML, CSS

Databases & Cloud: MySQL, MongoDB, Amazon Web Services (AWS), Docker

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook, GitHub Actions

PROJECTS

RAJSPACE — Full-Stack Rental Platform | *Node.js, Express, MongoDB, Mapbox, Cloudinary* Jan 2026

- Architected and deployed a production-grade MVC web application with 15+ RESTful routes enabling authenticated users, role-based authorization, and full CRUD operations across listings, reviews, and wishlists.
- Designed normalized MongoDB schemas (User–Listing–Review); implemented Joi validation, middleware-based access control, session management using connect-mongo, and password hashing via Passport.js.
- Integrated Mapbox geospatial services and Cloudinary CDN-based image optimization; deployed live on Render with HTTPS, environment configuration, centralized error handling, and production-ready security practices.

Portfolio Tracker – ApexWave Solutions | *Node.js, Express, MySQL, JavaScript* May 2025

- Engineered a full-stack portfolio management system enabling users to record transactions, track holdings, and compute real-time portfolio valuation with performance insights.
- Designed normalized MySQL database schemas with transaction validation and ACID-compliant operations to ensure financial data integrity and consistency.
- Developed secure authentication mechanisms and scalable RESTful APIs using Express.js, along with a responsive frontend interface for efficient portfolio monitoring.

EXTRACURRICULAR ACTIVITIES

Indian Society for Technical Education (ISTE)

Mar 2024 – Present

Senior Core Committee Member

Vellore, Tamil Nadu

- Led and organized technical events, coding workshops, and hackathons with 300+ student participation.
- Coordinated with a 25-member team to execute speaker sessions and large-scale technical activities.

Entrepreneurship Cell, VIT

Feb 2024 – Present

Senior Core Committee Member

Vellore, Tamil Nadu

- Contributed to ideation events and business pitch competitions, supporting early-stage startup initiatives.
- Handled outreach, sponsorship coordination, and collaborations with 10+ startups and industry mentors.

ACHIEVEMENTS

- Secured Top 5 Rank in DevSoc 2024, CodeChef-VIT's flagship 48-hour national-level hackathon, competing among top technocrats to build innovative solutions under high-pressure sprint conditions.
- Achieved Top 3 Position in Pygame 2023 at graVITas (VIT's annual techno-management fest), developing game-based projects using Python and core game engine concepts.

CERTIFICATIONS

Oracle Cloud Infrastructure (OCI):

- AI Foundations Associate (Jun 2025)
- Generative AI Professional (Jul 2025)
- Vector Search Professional (Aug 2025)
- Data Science Professional (Sep 2025)
